

## ■ THE HOT LIST

Things we're loving this month...

### BEAUTYCYCLE

Amway have just launched a new range of beauty products, based on the elements, called beautycycle. This clever grouping of products into Earth, Water, Fire and Air allows you to easily select the ones suited to your skin type. Water products are suitable for normal to dry skin, Air combats the first signs of ageing, Earth caters for normal to oily skin and Fire energises dull skin. Make-up products are also available in an extensive range of colours to suit all skin types. Visit [www.amway.co.uk](http://www.amway.co.uk) to find out more.
