BAD COMBINATION?

Q Help! I've got combination skin. It can't decide if it's oily or dry and it's driving me mad.

Carly, Farnham, Surrey

A Combination skin is very common. And it's possible to sort it out. First get rid of dry patches with a gentle exfoliation. Try **L'Oréal Perfect Clean Refreshing Foaming Gel Wash, £4.99**. It comes with a great exfoliating brush. Then smooth on **Amway Beauty Cycle Earth Restoring Balance Day Lotion SPF15, £13.30** (amway.co.uk), to keep any shine and dryness under control.
